

SPEAKER TESTIMONIAL

Recently Katie Gutierrez Miller did a live presentation on the Art of Delegation for our clients and audience and it was met with resounding success and enthusiasm. Ms. Gutierrez Miller was not only knowledgeable and engaging but she used humor and candor to help articulate her presentation and key points with great effectiveness. As someone who has booked speakers for years, I can honestly say she is by far one of the most well received speakers I've had the pleasure of working with. After her presentation we got many compliments and thank you's from our audience for the advice and knowledge she shared.

I would highly recommend Katie Gutierrez Miller as a speaker to anyone looking to engage an audience of C-Level Executives, Entrepreneurs, or Business Owners. You will not be disappointed.

Founder/CCO

Katie Miller is an international speaker who teaches people how to work with virtual assistants to increase income. She created the [Virtual Assistant Quickstart](#) program to train virtual assistants to build successful businesses, and provide them with necessary resources and ongoing support. She can speak on a variety of business related topics and including how to successfully work with or as a virtual assistant.

HISTORY OF ASSISTANT MATCH

Assistant Match was created by Katie Gutierrez Miller to simplify lives and promote success. Katie is a business professional and investor who watched her peers struggle as they tried to grow their businesses and balance their lives. She knew first-hand that “virtual” assistants and remote office support could be extremely cost effective and efficient, but finding the right, qualified individuals to assist was a daunting and time consuming challenge. Assistant Match was created to bridge the gap between needing part-time, offsite business assistance and finding and working with the right people. Assistant Match has helped hundreds of businesses work successfully with virtual assistance and has matched highly skilled virtual assistants around the United States with business owners needing their help.
